

Coach & Committee Relationship Workshop

As part of our on-going support for clubs and members we will be holding workshops in each region to support and foster the relationship between coaches and committees.

As one of the most important relationships within a club setting, we want to allow the opportunity for coaches and committees to come together and discuss the key areas to make sure this relationship delivers for the club.

The key areas that we will focus on the day will be:

1. To encourage and develop healthy and mutually beneficial relationship between coaches and committees.
2. To identify support needs for clubs, coaches and committees.
3. To formulate a "partnership agreement" between coaches and committees which will become a template for clubs to adapt to their individual needs.
